SOUTH HAYWARD BART

South Hayward BART stands out as a model for affordable development that transforms lives. This mixed income community will include 151 affordable homes for families and seniors, 106 market-rate rental apartments, and new public park. Once complete, this development will transform the core of the South Hayward community, creating a vibrant high quality living environment for residents adjacent to the BART station and offering neighborhood amenities that currently do not exist.

The project was partially financed using Low Income Housing Tax Credits, the state Infill and Transit-Oriented Development Programs, and the Mental Health Services Act Housing Program.

FEDERAL and STATE

INVESTMENT *are* ESSENTIAL

California's long-standing housing crisis demands a comprehensive and sustainable plan to increase the supply of housing affordable to families struggling to get by. Increasing the supply of housing will not only stabilize families, it will create jobs and make California competitive again.

The Housing Affordability Crisis *is* Solvable

Lives have already been positively changed in your district by affordable developments. Everyone talks about California's high cost of housing—this is the moment leaders like you can support bold solutions to do something about it.

Use your legislative power to invest significant state investment in housing to lift more of your constituents out of poverty and create a meaningful legacy you can be proud of.

Close the Gap

Developers have to pull together a complicated array of public and private funding sources to build affordable apartments. But, massive state and federal disinvestment in housing has left a huge and growing gap, making affordable home development less feasible.
