ARBOR GREEN

Arbor Green stands out as a model for affordable development that transforms lives. Completed in 2014, this 40-unit affordable community includes onsite service staff that provides homework assistance and life skills training to the aspiring children and family population. Outdoor recreation is nestled at ground level in the center of the development, creating a nurturing environment where residents enjoy a host of family oriented amenities including a tot lot, barbeque areas, community gardening plots and passive use amenities.

This project was partially financed using Low Income Housing Tax Credits.

FEDERAL and STATE

INVESTMENT *are* ESSENTIAL

California's long-standing housing crisis demands a comprehensive and sustainable plan to increase the supply of housing affordable to families struggling to get by. Increasing the supply of housing will not only stabilize families, it will create jobs and make California competitive again.

The Housing Affordability Crisis is Solvable

Lives have already been positively changed in your district by affordable developments. Everyone talks about California's high cost of housing—this is the moment leaders like you can support bold solutions to do something about it.

Use your legislative power to invest significant state investment in housing to lift more of your constituents out of poverty and create a meaningful legacy you can be proud of.

Close the Gap

Developers have to pull together a complicated array of public and private funding sources to build affordable apartments. But, massive state and federal disinvestment in housing has left a huge and growing gap, making affordable home development less feasible.
