WEXFORD WAY AT EMERALD VISTA

Wexford Way stands out as a model for affordable development that transforms lives. Emerald Vista is a master-planned community designed to serve a broad cross section of the Dublin community by transforming the 24-acre Arroyo Vista public housing site into a vibrant, mixed-use, mixed-income community. This exciting new development provides 198 for-sale market rate homes and 180 affordable rental apartments for families and seniors, and includes access to a regional trail along Alamo Creek.

Wexford Way was partially financed using Low Income Housing Tax Credits.

FEDERAL *and* STATE

INVESTMENT *are* ESSENTIAL

California's long-standing housing crisis

demands a comprehensive and sustainable plan to increase the supply of housing affordable to families struggling to get by. Increasing the supply of housing will not only stabilize families, it will create jobs and make California competitive again.

The Housing Affordability Crisis *is* Solvable

Lives have already been positively changed in your district by affordable developments. Everyone talks about California's high cost of housing—this is the moment bold leaders like you can support bold solutions to do something about it.

Use your legislative power to invest significant state funds in housing to lift more of your constituents out of poverty and create a meaningful legacy you can be proud of.

Close the Gap

Developers have to pull together

a complicated array of public and private funding sources to build affordable apartments. But, massive state and federal disinvestment in housing has left a huge and growing gap, making affordable home development less feasible.
